

Checklist

WHAT SUPPLIES WILL I NEED?

Before you start scrapbooking, it's helpful to gather some basic supplies. You'll want to make sure your materials are archival quality so your finished project will last for several generations. Look for words like "archival" or "photo safe" on product packaging.

For a basic page, start with supplies like:

- Cardstock
- Photo corners and/or adhesive
- A pen (for journaling)
- A paper trimmer or pair of scissors

For an embellished page, add supplies like:

- Ribbon
- Flowers
- Stickers or rub-ons
- Charms
- Buttons

You can store your completed pages in sheet protectors and then keep the finished pages in:

- A scrapbook album (Check your local craft, discount and scrapbook stores for options.)
- A basic binder (Check your office supply store for options.)
